

General Engineering & Common Syllabus

BRANCH: COMMON FOR ALL BRANCHES

COURSE CODE: GE101

Subject Overview & Scope

This comprehensive document serves as the official compiled study notes for General Engineering & Common Syllabus (GE101) under the Common for all Branches department. It is structured into four core university syllabus units covering primary concepts, definitions, formulas, and advanced technical applications for university examinations and placements.

University Course Syllabus & Core Units

Unit 1: Professional Communication & Ethics

Communication models, barrier removal, presentation skills, email etiquette. Professional ethics: integrity, accountability, corporate citizenship.

Unit 2: Computer Systems & Programming

Computer architecture, binary systems. Basics of programming: variables, control structures (loops, conditionals), functions, arrays.

Unit 3: Basic Electrical & Electronics

AC/DC voltage, Ohm's law, resistors, capacitors, inductors. Semiconductor diodes, logic gates, amplifiers.

Unit 4: Environmental Studies & Sustainability

Ecosystems, biodiversity conservation. Water, air, and noise pollution control. Renewable energy, sustainable development goals.

Ohm's Law: $V = I * R$. Power: $P = V * I = I^2 * R$.

CRITICAL FORMULA / PRINCIPLE:

Key Formulas & Exam Pointers
